In-Line watertight fuse holders

- Two-pole breakaway In-Line fuse holders
- Designed for high humidity and corrosive environments where fuses are required.
- LEX T-Y Y version has a permanently installed “neutral” slug to prevent the neutral from accidentally being fused.
- LEX-Y Y version allows for fusing of line-to-line loads or other applications requiring 2 fuses to disconnect under strain.
- Fiberglass polymer body resists damage from impact
- Four “Y” type set-screw terminals accommodate a wide range of solid and stranded Cu or Al conductors.
- O-ring and terminal boots form watertight seal, preventing leakage

A Member of the ABB Group

Expansion Coupling

- XD Expansion/Deflection Coupling for Rigid Conduit or Non-Metallic
- XJG

Reinforced Thermosetting Resin Conduit (RTRC)

- Below ground, concrete encased, underbridge
- & almost anywhere in between – Champion Duct delivers:
 - Ease of installation,
 - Fire and corrosion resistance
 - Excellent impact resistance and more.
 - Approved for UL 2515 for above ground installations.

Bridge Hanger

- Fiberglass Bridge Hangers
- HDG & SS hardware available

Above Ground Products & Precast Polymer Concrete Enclosures

- Above ground products & enclosures incl; PenCell, CDR legacy/Quazite FRP/COMCORE/HOT BOX/Western Power
- Median Barrier Boxes
- Light Weight Covers

Southwire®

Cable In Conduit, XHHW, XHHW-2 Insulation, PVC Jacket, Copper Conductor, Tray Cable

- All products available on wooden, Poly-fiber or metal-spoked reels .
- All cable-in-conduit & empty duct have end caps to keep moisture & contaminants out while not in use.
- Reels tagged with weatherproof place cards that display pertinent info regarding the product

HeritagePlastics

PVC Conduit

- PVC Schedule 40, Schedule 80
- DB & EB Conduit Fittings
- Trade Sizes ½” to 6”
- Stocked in both Houston & Weatherford, Texas

Wheatland Tube

JMC STEEL GROUP

Galvanized Rigid Conduit

- Trade sizes ½”- 6”
